

# NEW PRODUCT RELEASE

## OIL SAFE® PREMIUM PUMP

Enluse bv is pleased to offer another new product innovation to help you elevate your lubrication program to Best Practice Standards.

- Increased efficiency
- 10 different colors
- Strong D-Type handle
- Fully serviceable
- Increased flow rate
- Viscosities up to ISO 680
- Available options
  - 10 µ breather
  - Different length hoses
  - 1/4" NPT adapter

The OIL SAFE® Premium Pump saves you the cost of equipment failures due to lubricant contamination or misapplication.

The Premium Pump has new and advanced functionalities & is highly efficient.

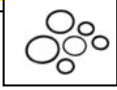

1. 10 different removable color coded collars to clearly identify lubricants .
2. Increased efficiency due to re-engineered construction with unique non-return valve.
3. Strong ultra comfortable D-Type handle with sure grip .
4. Fits to standard **Oil Safe Utility Lid** and **Oil Safe Drum** to complete the pump system.
5. Capable of handling up to ISO 680 viscosity lubricants. High flow rate : 12 strokes per litre.
6. Optional 1/4" NPT coupler to add quick-disconnects for closed loop operations.
7. Optional 10 micron filter breather to keep out air born contamination.
8. Different lengths discharge and suction hose available, with or w/o 1/4" NPT adapter.
9. Complete CLOSED LOOP filling & transfer system, totally contamination free.

Order an OIL SAFE® Premium Pump SAMPLE KIT today at [www.enluse.com](http://www.enluse.com) and start establishing a Best Practice Lubrication program in your company!
